

CUSTOM 1:1 COACHING PROGRAM:

UNLEASH YOUR PERSONAL BRAND

Stand Out. Sink the Competition. Savor Success.

THE SITUATION

We now live in a globally and socially connected world, where competition is fierce and attention spans are short.

- As the working world becomes even more virtual, employees need to find new ways to demonstrate their value. Being virtual means working harder to be visible.
- When it comes to managing your career, it's up to you to identify your next role and impress the right people in an organization to make it happen.
- Automation is real. Jobs of the past are disappearing. Jobs of the future don't exist. If your experience and skills remain relevant, you need to make sure the right people know about it.
- The employment timeline of the future will include alternating, intermittent periods of being employed, being a contractor and/or being a solo-preneur.

You need to know how to sell yourself.

THE SOLUTION

In today's fast paced, attention-challenged world, powerful personal brands enjoy benefits that others simply don't. They command higher fees, are referred more often, haggle less over price, if at all, and are thought of first as the "go to" person for what they know and who they are. This 6-week customized coaching course will help you:

Learn to leverage everything that makes you remarkable and uniquely you: your natural talents, strengths, skills, experience, personality, values, style.

Communicate your brand with confidence and influence. Build trust and credibility to attract (vs chase!) more of the opportunities you need and desire to succeed.

Get laser focused on who you serve and how you meet their needs to position yourself in ways that differentiate you from others.

Create a system for ongoing brand maintenance and to expand and nurture a proactive referral network.

PEOPLE DON'T BUY HOW
GOOD YOU ARE AT WHAT YOU
DO. THEY BUY HOW GOOD
YOU ARE AT WHO YOU ARE...
